	5) We recommend this topic. “ You can create a Final Return at Home ! ” It contains 27 pages and all instructions are written in English.

The “ RECONSTRUCTION GUIDE” is also helpful but it contains 72 pages so it maybe too much and complicated.

As you know, the tax year for personal is Jan 1<sup>st</sup> to Dec 31th and the submission Deadline of tax filing is March 15<sup>th</sup> .

If you are however an employee at a company, you don't need to file tax by yourself because your employer would have done your “year-end tax adjustment”. If not, you need to file tax.

Also, meeting deadline is very important here in Japan, so when your tax form is not perfect, it's better to submit as it is.

Because you can make re-vised one within 5 years from the deadline.
